

# My Academic Profile and Course Registration Page

---

**Welcome!** This page is created as an **HTML homework project**.

My name is **Ali Yılmaz**. I am a university student learning *web design* and *HTML fundamentals*. This page includes text formatting, tables, forms, lists, links, images, and internal CSS.

Sometimes we need chemical formulas such as H<sub>2</sub>O or mathematical expressions like  $x^2$ . We can also show deleted text like ~~old information~~.

This highlighted note area is created with a **div** and styled with internal CSS.

---

## About Me

I am interested in programming, academic writing, and technology.  
In this course, I want to improve my HTML and CSS skills.

## My Skills

- HTML basics
- CSS basics
- Presentation preparation

## My Weekly Study Plan

## My Weekly Study Plan
